• **COSMOPROF.COM**

FOCUS ON SUSTAINABILITY:

The beauty industry is increasingly embracing sustainability, and Cosmoprof is leading the way by promoting and supporting companies that genuinely commit to reducing their environmental impact. This includes implementing initiatives focused on environmental, social, and economic sustainability.

The "green beauty" movement emphasizes careful use of resources, natural ingredients, and eco-friendly production, aiming to minimize environmental harm. This approach extends beyond products to the entire production chain, where companies adopt innovations to reduce energy consumption, waste, and promote ethical practices.

Cosmoprof Worldwide Bologna supports green brands by showcasing eco-friendly products and sustainability projects, fostering a cycle of circularity, innovation, and collective responsibility for a more sustainable cosmetics industry.

3 CLAVELES FILARMONICA

By 3 Claveles - Bueno Hermanos S.a.

3 Claveles
1 9 3 0

SPAIN
HALL: 33
STAND NO: G20
WEBSITE: www.buenohermanos.com

ABOUT THE COMPANY

Since 1930, 3 CLAVELES – BUENO HERMANOS S.A. is a well-known Spanish manufacturer of high quality hairdressing scissors, manicure-pedicure nippers and beauty accessories. At Bueno Hermanos, we work around values that allow us to be one of the best manufacturer of hot forged scissors in the world, with a constant commitment

to quality, innovation and design. Sustainability, training and continuous improvement of the company's production processes and operations, in order to offer the highest quality products and services. Professionalism, know-how and technology are combined with the passion we put into manufacturing quality cutting tools.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

At Bueno Hermanos S.A., we are convinced that sustainability is a natural part of being a successful business. Therefore we always strive to act ethically, transparently and responsibly.

Environment

Strategy: Contributing to the improvement of environmental conditions and the reduction of impacts. Reduction and savings in energy costs and consumption.

Plans: Installation of Solar Panels - Recycling waste - Reduction of around 40% in the use of PVC and PET plastic in packaging.

Material Social

Strategy: Supporting and fostering the work-family balance and equality.

Plans: Installation of Evaporative Biocoolers in factory and warehouse-Life-Work Balance Plan-Equality Plan-Corporate Social Responsibility Plan.

ACQUALAI

ACQUALAI

ITALY
HALL: 14
STAND NO: G38
WEBSITE: www.acqualai.com

ABOUT THE COMPANY

Acqualai is a meeting point between skincare and suncare, a collection of skincare-infused mineral SPF. Its mineral formula with Zinc Oxide (non-nano) is suitable for all skin types, especially the most sensitive. The collection was created for offering a safe SPF for the skin and for the planet,

by also for a year-round use. Acqualai has an Italian soul, which is recognizable in every detail, the production is proudly Made in Italy, with a short supply chain.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Climate change, water pollution, overfishing, but also the chemical filters contained in sunscreens cause coral bleaching and the alteration of marine biodiversity. Oxybenzone, Octinoxate, Octocrylene change the DNA of corals, causing sterility and an inability to reproduce. Our formulas are reef-safe, which means they are free of harmful ingredients to the marine environment and contain non-nano Zinc Oxide as sole active ingredient, the safest mineral filter on the market.

By donating 1% of our annual sales, we support a growing network of non-profit organizations to address our planet's most pressing environmental issues.

AGRADO SKIN POSITIVE

By Romar Global Care

AGRADO®
skin positive

SPAIN
HALL: 36
STAND NO: D18-E17
WEBSITE: www.quimiromar.com

ABOUT THE COMPANY

Romar Global Care – Agrado Cosmetic, Quimiromar and Envasado Xiomara – is a group specialized in the manufacturing of cosmetics, perfumery, personal care and hygiene and drugstore products owned by Acon and DeA Capital investment fund. It is the first aerosol bottler in Spain and one of the most important in liquids. With more than 50 years of experience, it directs its extensive product catalog to the mass market channel with a clear consumer-centric vision. The group is committed to sustainability and innovation with value for money criteria and following high quality standards (the group has ISO 9001, ISO 22716 and IFS-HPC). The group's brands are present in more than 100 countries.

FOCUS ON SUSTAINABILITY: PRODUCT

Hyaluronic Hydra Glow is not only a super-hydrating facial gel cream but also a sustainable beauty choice. It features natural micas, which provide intense radiance, high chroma, and excellent sensory benefits. These micas are responsibly sourced, supporting environmentally friendly production. The product prioritizes sustainability with 97% of ingredients of natural origin, ensuring minimal environmental impact. Its packaging is made from 100% recyclable materials, with a cap designed to reduce plastic content. Furthermore, the cardboard packaging is PEFC-certified, guaranteeing that it comes from sustainably managed forests.

ALERASIA

By GEFCOM S.a.s. di Moccagatta G. & C.

ITALY
HALL: 30
STAND NO: E30
WEBSITE: www.alerasia.com

ABOUT THE COMPANY

Gefcom has been the point of reference for those working in the professional beauty sector for over 30 years. Thanks to its vast experience, it carefully selects and offers the best brands for Beauty Centres, Wellness Centres and Spas. Gefcom meets the needs of all professional operators in the sector by offering a wide range of cosmetic and disposable products, accessories and

equipment, solariums, and furniture. In addition to distribution for the professional sector, Gefcom actively develops cosmetics and home fragrance brands. Among the best known, iTan, a historic professional sunscreen brand, and Alerasia, a new skincare and home fragrance brand with a strong link to the Monferrato area and a strong vocation for sustainability.

FOCUS ON SUSTAINABILITY: PRODUCT

Alerasia home fragrances are born as an upcycling project, from the creative recycling of post-consumer wine bottles. The expert artistic processing of glass transforms them into elegant design objects, giving new added value rather than simply exploiting the material as the normal recycling process would do. Candles and diffusers are handcrafted by a master glassmaker, becoming precious unique pieces. Once the essence is finished, the products can be reused and collected as accessories for the table and for the home, creating original and unique sets.

ARCA ETICHETTE

ITALY
HALL: 19
STAND NO: H12-I11
WEBSITE: www.arcaetichette.it

ABOUT THE COMPANY

Arca Etichette, a Benefit Corporation B Corp certified, produces self-adhesive labels and sleeve for packaging decoration, promotion, safety, logistics and the best automatic labelling machines, print-apply, laser markers.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Arca Etichette has included ocean plastic in its range: the first material in the world, ISCC Plus certified, for producing labels, created to combat ocean plastic pollution, maintaining the same quality and performance as fossil-based films. This material is made from plastic waste that risks ending up in the ocean located within a 50km from shores where waste management is non-existent or inefficient.

ARROGANCE

By The First SpA

ARROGANCE
MILANO

ITALY
HALL: 14
STAND NO: B24-C25
WEBSITE: www.thefirst.it

ABOUT THE COMPANY

Historical brand of the cosmetic scene "Made in Italy", since the early 80s is distinguished by its unique style, immediately recognizable, dynamic and future-oriented, making it an undisputed protagonist in the Italian perfumery scene.

In each Arrogance product, the unmistakable metropolitan style stands out.

FOCUS ON SUSTAINABILITY: PRODUCT

Faithful to the dynamic and constantly evolving approach, ARROGANCE approaches to intercept new trends and consumers, becoming the protagonist of an epochal restyling involving its iconic lines.

In an increasingly market-oriented approach to sustainability, a real buying driver especially for the new generations, the fragrances that have always been characterized by a textured plastic case are now dressed in new light with bottles of recyclable glass, keeping the lines, renewing itself in precious and modern details, in line with stylistic trends of the market.

Milan, cradle of new trends and city of fashion par excellence, perfectly combines the love for tradition and the drive towards modernity and innovation. For her and him, ARROGANCE proposes a careful and accurate selection of the best essences to give life to fragrances with unique and unforgettable style.

ARTISTIQUE NEDERLAND

THE NETHERLANDS

HALL: 37

STAND NO: E2

WEBSITE: www.artistiquened.nl

ABOUT THE COMPANY

Artistique Nederland B.V. is an innovative and dynamic company located in Deventer that was founded by the Göbel brothers in 1995. Both brothers were qualified hairdressers themselves and also very active in the hairdressing trade. They still own and run several hairdressing salons to this day. We are 100% independent,

therefore the quality of our products is excellent and guaranteed.

We offer all kinds of hair cosmetics. We supply hairdressers worldwide. In Europe, Artistique exports its products to countries such as Belgium, Germany, Poland, Austria, Switzerland, Czech Republic and others. Outside Europe, our products are available in South Africa, Saudi Arabia and Ukraine, among others.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

With our own factory, production facilities, laboratory, printing department, warehouse and training centre we are 100% independent, therefore the quality of our products is excellent and guaranteed.

We must of course treat our earth with care. That's why we save energy, limit water waste, use natural light and/or LED light. We also work with light sensors and benefit from the Dutch climate by using groundwater to cool products during production. We make our production processes energy efficient and contribute to reducing CO2 emissions.

ASQUAN GROUP

FRANCE
HALL: 15A
STAND NO: A17
WEBSITE: www.asquangroup.com

ABOUT THE COMPANY

At Asquan, our mission is to empower beauty brands in their quest for the perfect packaging solution. We understand the challenges faced by brands in the beauty industry, and our dedicated team of specialists is committed to delivering customized, hassle-free packaging solutions with swift lead times and unparalleled customer service. Let our expert teams bring your brand's vision to life with precision, reflecting your brand in every detail.

FOCUS ON SUSTAINABILITY: PRODUCT

The Migo Collection seamlessly integrates the most sought-after attributes in today's beauty industry: opulent design and sustainability. Crafted by our in-house designers with a focus on sustainable luxury, this patent-pending design is styrene free, rechargeable, refillable, recyclable, metal free, mono-material, and PCR possible – all while delivering distinctive functionality and an elegant aesthetic.

The rechargeable airless pumps feature a unique twist-to-lock/unlock mechanism, eliminating the need for an extra cap, easy disassembly of pump assembly ensures easy recyclability. The jars boast a mono-material construction, while also embracing eco-friendly rechargeability.

BEACHWAVER

 BEACHWAVER Co.®

USA
HALL: 37
STAND NO: F16 / G17
WEBSITE: <https://beachwaver.com/>

ABOUT THE COMPANY

The Beachwaver Co. is committed to innovation, accessibility, inclusivity, sustainability, and positivity. We empower everyone to embrace their beauty and unlock their full potential because we believe we're all capable of incredible things. Our premium vegan, science-backed haircare and patented styling tools are designed to deliver real results.

Known for versatile, high-quality products, we offer solutions for every hair type and texture. Focused on sustainability and inclusivity, we create products that empower individuals to embrace their unique beauty. With over 75 prestigious beauty awards and 113,000+ glowing social media reviews, Beachwaver is a women-owned, independent brand.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Sustainability is at the heart of Beachwaver and a fundamental part of our brand DNA. We're deeply committed to minimizing our environmental footprint in every way possible. For instance, we've reduced our packaging by 50%, drastically cutting waste, and continue to streamline our supply chain to reduce excess. One of our standout initiatives is the Certified Open Box program. Through COB, we breathe new life into pre-loved Beachwaver tools by refurbishing them to like-new condition and offering them at a discounted price. This not only supports sustainable practices but also makes high-quality products more accessible, reducing the need for new manufacturing. These initiatives are just the beginning. We're dedicated to driving positive change, continuously working toward a more sustainable future.

BEAUHEIT

By Unique Products Aps

DENMARK
HALL: 21
STAND NO: Q2
WEBSITE: www.beauheit.com

ABOUT THE COMPANY

BEAUHEIT is a premium, no-gender, vegan skincare range for the environmentally aware and quality conscious user who is worried about our planet but still expects products of an exquisite quality for a holistic and circular beauty routine.

Our products are sustainable made with 100% wind energy on our CO2-neutral, organic certified factory in Denmark. BEAUHEIT is made in a female owned, socially responsible company conscious of our duty to also employ people with handicaps and using fairtrade.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

BEAUHEIT is a sustainability and holistic brand. In respect to fair trade / ethical sourcing more than 20% of our raw materials are certified organic by COSMOS and fair trade by Fair for Life. For the last 20 years we have been a socially responsible company as we have employees with physical and mental handicaps. Almost half of our employees are challenged due to handicaps. We have a cooperation with our local authorities on this.

The packaging material we use is from recycled and recyclable PET and glass. We use many circular ingredients. One of the main ingredients is an anti-age ingredient made from left-over of apple plum from a cider production in Catalonia. Improved environment footprint come from implementing different initiatives and we believe in a holistic approach involving transportation, manufacturing, sourcing, packaging and energy source. Our company is CO2 neutral - all energy used come from 100% wind energy.

BEE FACTOR NATURAL COSMETICS

BEE FACTOR
natural cosmetics

GREECE
HALL: 21
STAND NO: F10
WEBSITE: www.beefactor.gr

ABOUT THE COMPANY

BEE FACTOR is a Greek production company specializing in natural cosmetics. We offer a diverse range of body, face, and hair care products, as well as natural oils and baby products. All our products adhere to EU Good Manufacturing Practice (GMP) standards, ensuring safety and effectiveness.

We respect nature and prioritize ecological awareness, using 100% recyclable packaging and certified cardboard from the Forest Stewardship Council (FSC). Join us and FEEL THE POWER OF NATURE.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

On a planet that sustains us, BEE FACTOR is dedicated to operating with conscience and respect for nature. We are committed to maintaining a minimal ecological footprint, ensuring that 100% of our product packaging is recyclable. We contribute to responsible social and environmental management of timber. Our paper boxes carry the Forest Stewardship Council (FSC) certification, indicating that they are made from recycled materials or sourced responsibly through accredited forestry management. Additionally, the cartons used for our packaging are compressed to reduce waste. At every stage of our production process—from the development and processing of raw materials to the packaging of our products—we actively promote environmental awareness. We just Adore Nature!

BEESLINE

LEBANON
HALL: 14
STAND NO: D4-E3
WEBSITE: www.beesline.com

ABOUT THE COMPANY

Beesline is a beegan skincare brand offering a range of safe, effective, and eco-conscious products, with a focus on face care. Using ethically sourced bee byproducts, Beesline is committed to protecting wild bees while delivering clean, innovative formulations. Founded by siblings, a chemist and a pharmacist, Beesline has over 30 years of expertise

in crafting gentle solutions for all skin types. As a leader in the Middle Eastern market, Beesline is now expanding globally, with a successful launch in 1,500 French pharmacies and a growing presence in over 20 countries.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Lebanon, home to 900 wild bee species, faces challenges like lack of data, public interest, and conservation policies to protect them. To address these issues, Beesline launched the GenBee Project to raise awareness and conserve wild bees through three sub-programs. Funding & Conservation: Beesline has been funding a 3-year field monitoring program to gather crucial data on wild bees aiming to create Lebanon's first Red List of Bees. This project is led by Dr. Mira Boustani in collaboration with the Lebanon Reforestation Initiative. Awareness Programs: The Young Guardians program educates students on wild bees, reaching 1,700 participants since April 2023. On the other side, Guardians of the Wild engages the public by including educational materials and bee-attracting seeds with orders, fostering community action. Beesline was named Global SDG Pioneer for SMEs in 2023 for its efforts, highlighting its commitment.

BELL HYPOALLERGENIC

HYPOAllergenic
Allergy Tested

POLAND
HALL: 26
STAND NO: B83-C84
WEBSITE: www.burton-trade.com

ABOUT THE COMPANY

Bell Hypoallergenic is a Polish makeup cosmetics brand that has been carefully listening to women's needs for 30 years. The high quality of the products and their unique formulas have made the brand recognizable around the world today. We offer a collection aimed at conscious women seeking a fresh and modern approach to makeup. All our products undergo rigorous testing under

the supervision of dermatologists and ophthalmologists, ensuring the highest standards of safety and comfort. With the HYPOAllergenic line, even individuals with sensitive skin and eyes can safely enjoy makeup trends while avoiding allergic reactions. In 2021 the brand expanded to include makeup products from the Clean Beauty category - 100% vegan and free of unnecessary ingredients.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

When we create beauty, we remember about our planet. Therefore, we make consistent efforts to develop and implement our strategy of eco-responsibility. At Bell, we are fully aware that our actions affect the Earth and how the life of future generations will look like. What inspires us most are our consumers – extremely aware women who change their everyday habits out of respect for our planet. The steps that we have implemented are only a beautiful beginning. We are constantly striving to take even better care of this place we all live in thanks to introduction vegan products and line. You can find in our portfolio products based on clean beauty definition – with short ingredient lists and products, as well as products with PCR content in packaging. We reduced carbon footprint because all products are manufactured in Europe – in Józefów, near to Warsaw. Additionally we provide green roofs in our factories and precious shelters for the smallest inhabitants of our planet.

GERMANY
HALL: 21
STAND NO: E7
WEBSITE: www.cosmondial.com

ABOUT THE COMPANY

In 2008, Silke and Stephan Becker founded their company with a mission: to make the world better through clean, organic cosmetics. Their brands, GRN [GREEN] and benecos, reflect this goal. benecos includes the color line Natural Beauty, skincare ranges benecosBIO and Natural Basics, and the men's line for men only.

Each brand focuses on quality ingredients, fair pricing, eco-friendly packaging, and modern design—clean, certified organic cosmetics for EVERYONE!

FOCUS ON SUSTAINABILITY: PRODUCT

Beauty ID: The benecos refillable palette Beauty ID is a sustainable and innovative solution in the world of eye makeup, providing a long-lasting, eco-friendly alternative. This compact refill palette, complete with a mirror, is designed to keep your entire makeup routine by your side wherever you go. With four pre-filled palettes to choose from, each tailored to different skin types, it offers convenience and personalization. The palette is equipped with eyeshadow, lip & cheek, blush, highlighter, and contouring products, all 100% certified organic (COSMOS Organic) and PETA-approved. Thanks to its magnetic pans, these makeup products can be easily replaced when they're empty, or swapped out to create new, exciting looks whenever desired. By using the refill system, you reduce waste significantly, making the Beauty ID a stylish, durable, and environmentally conscious choice. This palette combines sustainability, versatility, and beauty in one elegant package.

BRIVAPLAST GROUP

ITALY
HALL: 15
STAND NO: D10-E9
WEBSITE: www.brivaplast.com

ABOUT THE COMPANY

Brivaplast, an Italian family-owned company with more than 55 years of experience in the production of cosmetic packaging, is one of the world leaders in offering application solutions for mascara, lipgloss, concealer, eyeliner and eyebrow. Brivaplast has two production units, Italy (HQ) and China (Shanghai), and an

office in the USA (California) to support all customers worldwide. In 2022, they acquired Metal Tech, an Italian company that makes metallization, UV and acrylic coatings. Recognized on the market as a mascara leader, they are always able to offer innovative application solutions.

FOCUS ON SUSTAINABILITY: PRODUCT

"This is our second life!" Brivaplast's solution to your sustainability questions. We have renewed our packages to showcase how Brivaplast provides a second life to materials that were once used and discarded.

Our Green Product Line is comprised of retail and travel size recycled material packaging for mascara, eyebrow, eyeliner, concealer and liquid lip applications, that can be finished and decorated from a wide range of established techniques.

The COLORFUL FINISH utilizes mainly RENEWABLE RAW MATERIALS of WASTE PLANT ORIGIN. These represent up to 50% of the composition of the finish and it derives from vegetal wastes from olive trees or soy plants. The varnish is made in Italy.

BYPHASSE DOBER IMPORT EXPORT SL

BYPHASSE

SPAIN
HALL: 26
STAND NO: C67-C74
WEBSITE: www.byphasse.com

ABOUT THE COMPANY

Byphasse is an international cosmetic brand specialized in personal and skincare products, with more than 170 products, 105 of them being vegan v-Label certified. The brand is composed of 6 product families: facial, body, hair, feet, hands, baby and aim to provide a basic need that everyone deserves to have access to: personal care.

Byphasse works with local production units (EU) and consciously designs under a formula that offers XL sizes and XS prices.

FOCUS ON SUSTAINABILITY: PRODUCT

To help our consumers do their gesture for the planet, in 2023 we developed and launched 1L eco-refills formats for our Caresse shower creams. These new formats use 76% less plastic compared to a conventional bottle of the same capacity. At Byphasse, we believe that small actions add up to big changes: 1 small gesture + 1 small gesture + 1 small gesture + ... = A BIG GESTURE for the planet.

CAPARDONI BEAUTY FULL PACK

ITALY
HALL: 18
STAND NO: C60-D51
WEBSITE: www.capardoni.com

ABOUT THE COMPANY

Since 1947 Capardoni is providing packaging for make-up & skin care, nail polish, perfumery, home fragrances and personal care. Our strength is the ability to offer a full packaging solution with a big selection of items on stock or deliver an experience of tailor made packaging. Capardoni Group is also committed to the development and promotion of Eco-friendly packaging.

FOCUS ON SUSTAINABILITY: PRODUCT

Capardoni presents the innovative monomaterial dropper: an ecofriendly solution that keeps the same functionality and use friendliness of traditional droppers

All components are produced in PP and the collar can be manufactured in r-PP up to 99% upon request.

The use of PP instead of glass reduces the risk of breakage of the tube during the transportation and the filling process.

No need to disassemble the pieces after use, the dropper is designed to be recycled in the conventional plastic recycling chain without separating the components.

The dropper is available in different necks designed to be combined with our 15ml and 30ml glass and plastic bottles.

[comfort zone]
conscious skin science

ITALY
HALL: 30
STAND NO: B28-C27
WEBSITE: www.comfortzoneskin.com

ABOUT THE COMPANY

[comfort zone] is a complete line of facial and body products, treatments and rituals created in 1996 by Dr. Davide Bollati, pharmacist and president of Davines Group, an Italian company certified B Corp since 2016. The professional expertise, gained over 25 years in the spa and wellness industry, is combined with the constant innovation of in-house laboratories supported by a team of more than 60 researchers and an international scientific committee. Vegan formulations are inspired by

the principles of pharmacognosy and the many botanical species grown in the Scientific Garden, the open-air laboratory at the brand's corporate headquarters. In addition, the commitment to support regenerative organic agriculture has made the supply chain of active ingredients even more sustainable, and has led to the founding in 2022 of EROC, the first Regenerative Organic Center just outside the Comfort Zone Village in Parma.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Stand for regeneration is a promotional and educational campaign that the brand offers each year to highlight its commitment to skin and soil regeneration and the effectiveness and benefits of regenerative agriculture principles and ingredients.

CONFALONIERI

ITALY
HALL: 15A
STAND NO: A5
WEBSITE: www.confaloniericosmetica.com

ABOUT THE COMPANY

Made in Italy, made of wood, made to measure. Confalonieri Matite is specialised in make-up pencils made with sustainable wood and manufactured entirely in our facility in Gordona, Italy. From concept to production, we create private label lines designed on client's requirements, using high-quality raw materials and customising every part. Each product is designed and formulated by our R&D team, making the most of our expertise of over 50 years and providing innovative solutions. Confalonieri Matite is specialised in the

production of wooden pencils, using PEFC certified cedar. The pencil itself, is made with wood sourced from responsibly managed forests. For our formulas we use only high quality raw materials, chosen and sourced with care for people and the environment. We respect the strictest standard of quality and monitoring of the supply chains, producing pencils certified by Cosmos, Natrue and Ecocert. We're reducing plastic by using caps made with recyclable materials, recycled PCR or aluminum.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Confalonieri Matite is specialised in the production of wooden pencils, using PEFC certified cedar: when it comes to sustainable make-up products, we have a head start. Our products have a minimal packaging, the pencil itself, made with wood sourced from responsibly managed forests. That's just the starting point: for our formulas we use only high quality raw materials, chosen and sourced with care. We're reducing plastic by using caps made with recyclable materials, recycled PCR or aluminum.

CORE BY URANG

By Jinsa F&B Co., Ltd

CORE
BY URANG

SOUTH KOREA
HALL: 14EG
STAND NO: 33
WEBSITE: www.urangnatural.com

ABOUT THE COMPANY

Urang is a premium organic skincare brand known for its commitment to clean, natural ingredients and overall wellness. Launched in 2016 December and created from Jina Lee (CEO/founder)'s own kitchen, Urang now has a global presence in 19 countries. Inspired by Urang's philosophy and values, including sustainability, sincere dedication to the ingredients, and transparency in processes, Jina created her second brand--Core by Urang.

Core by Urang focuses on essential ingredients, leaving out unnecessary additives for a clean and effective skincare solution. Developed for young and sensitive skin, the minimalist formulas prioritize what truly matters to maintain natural beauty. Rooted in purity and clean beauty, it offers simple yet effective skincare solutions.

FOCUS ON SUSTAINABILITY: PRODUCT

Most skincare products leave behind unused residue, forcing you to throw away what you've paid for. But not with Core by Urang. Designed with a precision dropper and a recyclable glass bottle, our formula ensures you can use every last drop—nothing goes to waste. Not only does this maximize your product's value, but it also reduces environmental impact by minimizing leftover product and promoting sustainability. A skincare experience that's as efficient as it is eco-conscious.

DUNGÜD

AUSTRALIA
HALL: 37
STAND NO: F15
WEBSITE: www.dungud.com

ABOUT THE COMPANY

DunGüd is more than just haircare—it’s an attitude. Aussie-made and owned, we create high-performance, salon-quality products designed for people who want effortless, wearable hair without the fuss. Inspired by street culture and real-life creatives, our formulas are simple, unisex, and clean—free from unnecessary additives but packed with the güd stuff. We’re growing fast, disrupting the industry with bold branding, ethical formulations, and a rebellious spirit.

Our products are designed to perform both in salons and in the hands of everyday people who value authenticity, sustainability, and style. At Cosmoprof Bologna, we’re here to connect with distributors, retailers, and salons that want to offer something fresh, fun, and undeniably güd. Come see what the hype is about!

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

At DunGüd, sustainability isn’t a trend—it’s how we do business. We manufacture using a local water source, eliminating the need for excessive transport and reducing our footprint. Our entire production runs on solar power, harnessing clean energy to create high-performance haircare with a conscience. But we don’t stop there—a percentage of all online sales goes to The Ocean Cleanup, supporting efforts to remove plastic waste from our oceans. With DunGüd, you’re not just getting top-tier hair products—you’re making a choice that does good for the planet. #BringingYouTheGüd

EUROVETROCAP SPA

EUROVETROCAP

ITALY
HALL: 18
STAND NO: F28
WEBSITE: www.eurovetrocap.com

ABOUT THE COMPANY

Eurovetrocap has been a leader in cosmetic, pharmaceutical, and makeup packaging for over 40 years. Our wide range of standard products, Italian design, production flexibility, and advanced decoration techniques allow us to offer customized, distinctive packaging for skincare, haircare, body care, makeup, fragrance, and aromatherapy. Quality, competitive pricing, fast lead times, and low minimum orders are key benefits. Research and Development drives us to deliver innovative, trendy packaging solutions for your success.

FOCUS ON SUSTAINABILITY: PRODUCT

On the occasion of Milan Beauty Week 2024, Eurovetrocap presented a cosmetic packaging made of a PET PCR bottle and a PP PCR cap, fully adhering to the principles outlined in the white paper "Plastic Packaging in the Cosmetics Sector," created by Cosmetica Italia and Aliplast. This guiding document describes how to design an ideal packaging to maximize material recovery at the end of its life cycle. The bottle follows a circular approach that integrates functionality, aesthetics, and sustainability, facilitating recycling and complying with the guidelines established in the paper, perfectly aligned with the highest recyclability standards.

FLÂNERIE SKINCARE

...
flânerie

By Atypic Skincare Ltd

UK

HALL: 14

STAND NO: C8-D7

WEBSITE: www.flanerie-skincare.com/gb

ABOUT THE COMPANY

Flânerie Skincare is a luxury beauty brand inspired by the art of mindful exploration and self-care. We offer high-performance, scientifically formulated skincare products that blend nature and innovation to nurture radiant, healthy skin. Rooted in the philosophy of slow beauty, our collections encourage

moments of pause and indulgence in everyday rituals.

As we continue to grow and evolve, our focus remains on delivering effective, elegant solutions that inspire confidence and well-being. Flânerie is more than skincare—it's an invitation to wander, discover, and glow.

FOCUS ON SUSTAINABILITY: PRODUCT

Flânerie Skincare's Purifying Cleansing Powder embodies our commitment to sustainability through a waterless, powder-to-foam formula that conserves water and reduces energy use. Packaged in recyclable glass with glueless, uncoated PCR materials, it minimises waste and environmental impact. Certified vegan and cruelty-free by PETA, the formula reflects our dedication to ethical practices and plant-based ingredients. Its minimalist design features a perforated disc for precise, waste-free dispensing encouraging mindful consumption. This product reflects our mission to blend effective skincare with eco-conscious innovation.

FRAMCOLOR By Framesi Spa

ITALY
HALL: 32
STAND NO: A27-B28
WEBSITE: www.framesi.it

ABOUT THE COMPANY

Framesi is an Italian multinational that has represented excellence in the hair beauty industry for 80 years. Proud of our roots, with passion, creativity, and innovation, we have always aimed to offer hairdressers worldwide high-quality products and comprehensive training programs. Our mission is simple: to work every day for the success of the salons and professionals

who choose us. Together with the invaluable support of our partners, we operate in 80 countries, bringing the best of Italian style and professionalism to the world. Combining tradition and technology with ethical and sustainable choices, our products are designed to provide advanced solutions that meet the needs of today and tomorrow.

FOCUS ON SUSTAINABILITY: PRODUCT

At Framesi, we're committed to a Corporate Sustainability journey based on ESG pillars. We adopt water-efficient technologies, use recycled/recyclable materials, and optimize our production processes. An example is our Morphosis line, where we use PCR, and our Framcolor Glamour hair color now comes in ≥95% recycled packaging. We support our community through social and educational projects (Mobilità Garantita) and participate in charitable initiatives (Beauty Gives Back). We safeguard our employees' health and enhance their well-being with DEI programs. We are ISO 9001 and GMP certified, and we have already started the process for ISO 14001 (2025) and ISO 45001 (2028) certifications, as well as for preparing our sustainability report (2026). Additionally, we collaborate with Cosmetica Italia.

GLOV

GLOV®

POLAND
 HALL: 14
 STAND NO: C2-D1
 WEBSITE: www.glov.co

ABOUT THE COMPANY

GLOV: Effortless Beauty, Your Way
 GLOV is all about making your beauty routine effortless and completely you. We follow the latest trends, but with a twist: we take existing products and improve them with better functionality, materials, design, and of course, quality. You do you. We provide the tools to achieve your unique look, without the hassle.

Our high-quality accessories are made to last, not to be tossed after one use. Looking good shouldn't cost the Earth. While we're a commercial brand, we take responsibility for our impact. That's why we run projects to give new life to pre-loved GLOV products. We collect used gloves and turn them into benches for communities – because a little goes a long way.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

At GLOV®, sustainability is more than a trend, it's our mission. We create zero-waste products, ensuring they don't end up in landfills but are reborn in new forms. Through our closed textile loop program, used GLOV® products can be returned to us, recycled at Vive, and transformed into eco-friendly benches.

Our goal? Raising awareness, supporting local environmental initiatives, and encouraging conscious consumer choices. With GRS-certified, cruelty-free, and 100% vegan materials, our products reduce waste and environmental impact. A single GLOV® makeup remover glove replaces up to 500 disposable cotton pads and up to 5 skincare products, saving water, energy, and the planet. At GLOV®, we innovate for a better future.

GLOV®

Upgrade Your Routine,
 Reveal Your Best Skin.

GLOW UP By Pennelli Faro Srl

pennellifaro
private label brushes - made in italy

ITALY
HALL: 15
STAND NO: B10-C13
WEBSITE: www.pennellifaro.com

ABOUT THE COMPANY

Pennelli Faro is an Italian manufacturer of brushes and accessories for cosmetics and fine arts, specializing in private label production since 1971 and recognized internationally. Based in Casalmaggiore, the company stands out for its innovation, Made in Italy quality, and sustainability, ensuring a non-relocated and eco-friendly production process. With over 28 patents and numerous awards, Pennelli Faro is a benchmark in the beauty industry, designing cutting-edge tools for cosmetic product application.

FOCUS ON SUSTAINABILITY: PRODUCT

SOLO® redefines the cosmetic brush with a revolutionary one-material design, crafted entirely from recycled and recyclable plastic. By replacing the five different materials typically used—handle, ferrule, fiber, glues, and more—with a single material, SOLO® sets a new standard in sustainable beauty. Designed for versatility, SOLO® features two handle sizes—one larger and one more smaller—paired with 14 interchangeable brush heads. This exclusive click & lock system allows for seamless transitions between applicators, making it perfect for makeup, skincare, and haircare routines. SOLO® embodies true sustainability: made from post-consumer waste water bottles, it eliminates complex material separation, ensuring effortless recycling.

GRUPPO PETTENON COSMETICS

ITALY
HALL: 25
STAND NO: B22 / C23
WEBSITE: www.pettenon.it

ABOUT THE COMPANY

For over 70 years, Pettenon Cosmetics Group has stood out as an international leader in the professional haircare sector, promoting beauty in an ethical and sustainable way through innovative cosmetic products. Recognized worldwide as a synonym for quality by industry professionals, Pettenon Cosmetics offers an extensive range of multi-brand products, all Made in Italy, and distributed through various channels. Additionally, Pettenon Cosmetics provides an extensive Private Label service. The Group operates three production sites based in Italy, covering a total area of 105,000 square meters. Pettenon Cosmetics stands out in the market as one of the few companies to have fully internalized the entire production process.

FOCUS ON SUSTAINABILITY: : CORPORATE ECO FRIENDLY SOLUTIONS

Pettenon Cosmetics' sustainability goals follow a structured and progressive path. For over four years, it has conducted an Organizational Life Cycle Assessment and carbon footprint analysis to quantify its main environmental impacts. This analysis helps assess impacts at all life cycle stages and reinforces the company's commitment to carbon neutrality and CO2 reduction. Pettenon Cosmetics is dedicated to further emission reduction strategies with specific, regularly monitored targets. With ClimatePartner's support, the San Martino di Lupari site has achieved carbon neutrality for the third year through 100% renewable electricity, compensated methane, and emission offsetting.

HEINZ-GLAS

HEINZGLAS
family-owned since 1622

GERMANY
HALL: 18
STAND NO: D23
WEBSITE: www.heinz-glas.com

ABOUT THE COMPANY

HEINZ-GLAS: Brilliant in glass making. Innovative in all its facets. HEINZ-GLAS fulfills wishes of international customers in the perfume and cosmetics industry. From the glass, to the finishing, to the closure.

It has 16 locations in 13 countries on four continents and has grown over the last couple of years to one of the leading flaconnage manufacturers in the world. The company produces bottles and jars for the perfume and cosmetics industry and offers numerous finishing technologies.

FOCUS ON SUSTAINABILITY: PRODUCT

The HEINZ-GLAS Group, a global producer of glass flacons and jars for the perfume and cosmetics industry, has decided to have the carbon footprint of its products voluntarily analysed and verified by an independent third party. HEINZ-GLAS relies on an intelligent IT tool developed in-house to systematically analyse emissions along the value chain of its products. TÜV SÜD has successfully validated the underlying methodology.

With the PCF tool, the CO2 emissions of a HEINZ-GLAS product can already be variably determined during the development process. This enables customers to design the shape, form and decoration of the product in such a way that the lowest possible carbon footprint is achieved. In this way, Heinz-Glas is also documenting the transformation to electro-melting and renewable electricity at all global locations that began over 50 years ago.

IAMARES

IAMARES
IL MARE DENTRO

ITALY
HALL: 14
STAND NO: G34
WEBSITE: www.iamarescosmetics.com

ABOUT THE COMPANY

Iamares innovates the panorama of natural skincare by exploiting the beneficial power of the purest seawater from Sardinia at the highest existing percentages. The philosophy "less is more" has allowed the effectiveness of each product to be traced exclusively to the sea properties without added chemical elements, giving rise to a vegan,eco-sustainable line with organic ingredients. Seawater is rich of bioavailable

elements and through osmosis the minerals contained within it promote the mobilization of excess fluids by carrying out a detoxifying, draining and mineralizing action. Calcium, magnesium, potassium promote skin functions by keeping it revitalized, firm and elastic. The sea is a green resource for excellence & the company is committed to making the "Made in Italy" stand out in the world.

FOCUS ON SUSTAINABILITY: PRODUCT

Less is more philosophy. Higher percentages of sea water to bring all the benefits back to the key ingredient. Water extracted and cold-purified with environmentally friendly and eco-friendly procedures. The collection method is also naturally governed by strict rules in order to combat the depletion of resources. The product is cruelty free, nickel-free and tested for sensitive skin. The packaging is recyclable. The company has started the process to become a Benefit Company with the aim of supporting projects against marine pollution.

SWITZERLAND
HALL: 21
STAND NO: M9
WEBSITE: www.gflcosmetics.com

ABOUT THE COMPANY

Founded in 1995, GFL Cosmetics is a leading company in personal care, specializing in high-quality cosmetics with a strong focus on sustainability. Organized into three business units—retail, offering organic, vegan, and natural lines inspired by Italian tradition; amenities, providing solutions for the hospitality industry;

and contract manufacturing, delivering services for brands seeking to outsource production—GFL stands out for its use of natural ingredients, eco-friendly packaging, and sustainable practices. With a distribution network covering over 140 countries, GFL supports global growth backed by certifications such as Ecocert and VEGANOK, ensuring safety and quality.

FOCUS ON SUSTAINABILITY: PRODUCT

The Itinera collection by GFL Cosmetics celebrates Italian excellence with body and hair care products that evoke a journey through the landscapes and traditions of Italy. Inspiration from Italian cinema is reflected in the creative design of the labels, which capture the nostalgic charm of 1960s cinema, enhancing the aesthetic of Made in Italy. Beyond a commitment to sustainability, Itinera’s innovation is expressed in natural formulas with at least 95% ingredients of natural origin, carefully selected to respect skin and hair, and featuring unique fragrances that reflect the identity of Italian regions. The products, free from animal-derived ingredients, are certified VeganOk and produced with advanced methods that minimize environmental impact. Itinera is more than a cosmetic line: it is a sensory and sustainable experience.

Kalýssa's mission is to revolutionize the cosmetic packaging industry by offering solutions that not only protect the contents but also enhance their value and identity. Mission: design packaging that combines refinement, functionality, and operational efficiency, capturing the essence of every product and brand.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

The Bali line offers double-walled jars with an elegant design and modern proportions, perfect for meeting contemporary needs while respecting the environment. Made from PP and R-PP, a 99% recycled material, these jars stand out for their recyclability. The satin finish, available in white and black, along with versatile sizes, makes them ideal for a variety of projects, combining aesthetics and practicality. The double-walled jar represents a breakthrough in the recycled plastic packaging market: its inner walls are made from 100% virgin PP, making the jars suitable for all types of filling, preventing contamination or loss of quality, and maintaining food-grade certification.

KERN TEC

AUSTRIA
HALL: 20
STAND NO: A41
WEBSITE: www.kern-tec.com

ABOUT THE COMPANY

Kern Tec is a pioneer in sustainable innovation, transforming upcycled stone fruit pits into premium ingredients for the cosmetics and food industries. Our product range includes high-quality cold-pressed oils and natural biodegradable exfoliants made from stone fruit shells. Committed to circular economy principles, we utilize by-products from the food industry,

ensuring zero waste, minimal environmental impact, and ethical sourcing. With a growing presence in the European market, we continuously expand our partnerships and develop innovative solutions that align with sustainability goals. Kern Tec stands for high-quality, eco-friendly ingredients that redefine sustainability in the cosmetics industry.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

At Kern Tec, sustainable responsibility is fundamental to our mission. We utilize upcycled stone fruit pits from the food industry, transforming unused by-products into high-value cosmetic and food ingredients. This innovative approach reduces food waste, eliminates the need for additional land use or cultivation, and conserves water resources. Compared to traditional raw materials like almond oil, our cosmetic ingredients significantly lower CO₂ emissions, aligning with global efforts to combat climate change. Plum Seed Oil meets the rigorous standards of NATRUE and organic certifications, ensuring environmentally responsible production. Additionally, we prioritize transparent and fair partnerships with suppliers to support ethical sourcing practices.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Jean Paul Mynè embraces sustainability through three key pillars. First, eco-friendly packaging, using recycled, biodegradable materials and minimizing plastic to reduce environmental impact. Second, sustainable ingredients, sourcing raw materials from ethical, certified suppliers who respect natural ecosystems. Formulas are free from harmful substances, ensuring safety for both clients and the planet. Lastly, environmental impact reduction, optimizing production processes to lower energy consumption, emissions, and water waste. The company invests in innovative technologies to create high-performance, eco-conscious products, demonstrating a commitment to beauty that respects nature. Through these efforts, Jean Paul Mynè promotes a greener, more responsible future for the hair care industry.

L'ERBOLARIO

L'ERBOLARIO

ITALY
HALL: 21
STAND NO: B2-C1
WEBSITE: www.erbolario.com

ABOUT THE COMPANY

L'Erbolario was founded in Lodi, in 1978. With around 600 products in its catalogue, L'Erbolario fulfils every need in face, body and hair care, in sun protection, children's skin care and the home.

From a small artisan herbalist's shop, L'Erbolario grew, year after year, to become a leading company in the Italian plant-based cosmetics market, without ever losing sight of its corporate calling of 100% made in Italy.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

For the packaging of its products, L'Erbolario selects materials obtained from renewable sources, such as GREEN PE and GREEN PET from sugar cane and post-consumer plastic from recycled water bottles (R-PET). For paper materials, it uses only FSC®-certified paper, to support responsible management of forest resources. Since 2002 it has chosen to adopt an environmental management system (UNI EN ISO 14001 certification), undertaking to improve its environmental performance and save energy. It only uses electricity from renewable sources, largely self-produced in its 1677 kWp solar farm. In its laboratory, research and extraction laboratory, it prepares more than 400 different plant extracts, which make them unique and cosmetic. It selects the best plants, preferably organic, prioritising those from its botanical garden..

LA SAPONARIA

ITALY
HALL: 21
STAND NO: A10-B9
WEBSITE: www.lasaponaria.it

ABOUT THE COMPANY

La Saponaria is a laboratory of organic cosmetics, now a leader in Italy, born from a great passion and a dream: to leave the world a little cleaner than we found it. Since 2023, we have been a Benefit Corporation, meaning we have formally committed to sustainability. Our mission is to create effective products that are good for those who use them and also benefit the world

we live in, made of nature, people, and communities. This is the spirit that guides us in selecting, formulating, and crafting our 100% conscious cosmetics—products with a story to tell, made of wonderful ingredients, sustainable projects, and people who dream together of a better tomorrow.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

We've always wanted to leave the world better than we found it. So one of the things we care most about is the environmental impact of what we do and make. In recent years we've focused on packaging and by 2024 we got to 95% sustainable packaging for our products. We use glass and aluminum and innovative green materials like: bioplastic made from organic sugarcane, post-consumer recycled plastic and ocean plastic. We also have many 100% plastic free products, solid or powdered, in recyclable paper packaging. We try to give our packaging a second life or reuse it as much as possible. An example is our refill products, like solid and roll-on deodorants. You buy the applicator the first time and then buy 100% plastic free refills. A small gesture with big impact, especially when you think we use around 400 deodorants in our lifetime.

LACABINE GROUP

laCabine®

INNOVATIVE COSMETICS

SPAIN

HALL: 26

STAND NO: C71

WEBSITE: www.lacabinegroup.com

ABOUT THE COMPANY

Established over a decade ago in Barcelona, laCabine Group has become a leader in innovative cosmetics. From our beginnings, we've grown into a global brand in premium skincare and haircare, with innovation at our core. LaCabine, our flagship brand, brings salon-quality treatments to your daily routine. Our diverse range of high-performance

products addresses all skin needs, delivering effective results. Our latest release, GSKIN, is a revolutionary line of certified upcycled natural cosmetics. With formulas that are 100% effective and up to 99% from natural origin, it represents our commitment to high quality skincare. Because at laCabine Group, we believe that beauty should not be a luxury, it should be a right.

FOCUS ON SUSTAINABILITY: PRODUCT

We've also launched a new brand, GSKIN, developed by the scientists from laCabine, with a strong focus on upcycling. This sustainable approach involves repurposing fruits, vegetables, and flowers that were set to be discarded, giving them a new life in our skincare products. By combining these upcycled ingredients with trending active ingredients, we've created effective formulas that deliver visible results without compromising on sustainability. This upcycling movement allows us to promote eco-friendly practices while ensuring our products remain innovative and high-performing.

LOOKX COSMETICS

HOLLAND
HALL: 14EG
STAND NO: 44
WEBSITE: www.lookx.com

ABOUT THE COMPANY

LOOKX is always there for you as your skin evolves. Your skin now, isn't the same as your skin yesterday. Or as it will be – tomorrow. Adapting to time, your skin needs skincare that consistently delivers under any condition. Skincare that's tailored to your unique needs and genuinely delivers on its promises.

FOCUS ON SUSTAINABILITY: PRODUCT

Plant stem cell technology: The heart of our innovation

Nature is the source of our active ingredients. With our LOOKX Skin science we make these active ingredients extra powerful.

LOOKX uses various plant (stem) cell extracts. Including tomatoes, grapes, raspberries and prickly pear. Plant (stem) cell extracts are so much stronger and more versatile than regular plant extracts that the effect of a product can be multiplied to fifty times. Because they are skin identical, they can also be absorbed by the skin faster, better and more effectively.

You can see plant (stem) cell extracts as a kind of superfood for the skin. A plant (stem) cell extract contains many elements, each with their own effect. This includes vitamins, minerals, trace elements and antioxidants.

LOOKX products contain the most clinically tested percentage to provide results.

MAKRO LABELLING SRL

ITALY
HALL: 19
STAND NO: B5
WEBSITE: www.makrolabelling.com

ABOUT THE COMPANY

Makro Labelling's mission is to design cutting-edge labelers that are durable over time and capable of meeting customers' production needs, ensuring reliability and benefits. With over thirty years of experience and a global sales network, we offer impeccable service for assistance and spare parts, constantly expanding our presence in international markets.

Makro Labelling provides solutions for every production need, with labelers that handle from 1,500 to 50,000 bottles per hour, in various models: self-adhesive, cold glue, hot glue, roll-feed, and combined. Our "Made in Italy" production combines technological innovation, environmental sustainability, and a constant commitment to staying close to our customers.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Makro Labelling goes Green! With a completely "Made in Italy" production, we combine technological, mechanical, and electronic innovations with environmentally friendly production processes focused on energy savings and the ability to effectively implement a more sustainable economic development model. We are committed to reducing our environmental footprint both within Makro and on our roof! To this end, we have installed 192 photovoltaic panels on-site, which now supply 80% of our electricity needs. Since day one, these panels have generated over 368 MWh of clean, renewable energy. We are proud of this step, one of many we are taking to pave the way for a greener and more sustainable future in our industry!

ITALY
HALL: 25
STAND NO: B94/C93 || B98/C97
WEBSITE: www.kaaral.com

ABOUT THE COMPANY

Kaaral was founded in the Abruzzo region of Italy in 1981 by the Vitulli family, with the aim of developing an important market in the hair cosmetic sector. Over the years, the company has developed a cutting-edge production facility, and Kaaral is today in possession of the most important quality, safety and environmental certifications. Bolstered by the strength of its production, in 2000, Kaaral began building a sales network and customer portfolio worthy of an international company,

distributing its products worldwide and seeking to expand into an increasingly large market. One of the major challenges to be faced globally is operating responsibly for people and the environment. We love our Earth and we are very careful to implement concrete actions for sustainability. Our plant is designed to have the least possible impact, in terms of energy and water purification.

FOCUS ON SUSTAINABILITY: PRODUCT

Sustainability Matters. Every year we strive to improve. At Kaaral, our commitment to the planet is unwavering, reflected in sustainable choices for sourcing, packaging, and production. Maraes, Vegan Heaven for Hair Care. As conscious consumerism grows, beauty lovers seek products that align with their values. Maraes, a proud Kaaral brand, embodies ethical beauty with its 100% vegan certification and cruelty-free guarantee. Using natural ingredients like Monoi De Tahiti Oil, Maraes ensures exceptional results, recyclable packaging, and innovation, blending personal care with environmental responsibility.

MIXER & PACK

 HALL: 21
 STAND NO: H4a
 WEBSITE: www.naturae.es

ABOUT THE COMPANY

NATURAE Cosmetic, a new brand created by Biofactoria NATURAE et Salus S.A., a leading company in the production of aloe vera supplements with a presence in 25 countries, has been the result of 5 years of research where the same principle that governs the company has been applied, to develop disruptive products where the natural and healthy is a priority. This is how Aloe vera cubes were born, a new concept of 100% natural cosmetics patented worldwide, which prioritises transferring the benefits of nature to a new cosmetic adapted to the needs of each consumer.

FOCUS ON SUSTAINABILITY: PRODUCT

The new product does not include water, only aloe vera from our own organic crops located in Spain, adapting the traditional use of the plant to a new versatile and dynamic concept, where you can enjoy all the benefits of a real cube of fresh aloe vera, protected by natural waxes, in single-dose format. Simple formulation with only one main ingredient, easy to use and easy to understand, but with all the benefit of the nature.

We are dedicated to transforming oral care with high-quality, stylish, and accessible products that fit seamlessly into modern lifestyles. Our range is co-created with dental professionals to ensure clinical-level performance while catering to the diverse needs of today's customers. Combining innovation, affordability, and design, Ordo empowers healthier smiles worldwide.

In 2025, we are set to expand into the U.S. and other key international markets, bringing our innovative products to a broader audience. We are also strengthening our position as a forward-thinking leader in oral care. As we grow, our commitment to sustainability, accessibility, and customer-centric solutions remains at the heart of everything we do.

FOCUS ON SUSTAINABILITY: PRODUCT

Ordo is dedicated to creating oral care products that are as environmentally responsible as they are effective. We continuously seek ways to minimise our environmental footprint, using recyclable and recycled materials wherever possible - from recyclable toothpaste tubes to our innovative mouthwash concentrate that cuts plastic waste by 96%, sustainability is at the core of what we do. Our pioneering brush head recycling scheme further reduces waste, offering customers an easy way to dispose of used brush heads responsibly. We know sustainability is a journey, not a destination, and we're driven by the belief that small changes can create a brighter, cleaner future for us all.

PAPERDOSE®

By Valmatic SRL

Valmatic®

ITALY
HALL: 20
STAND NO: E25
WEBSITE: www.valmaticsrl.com/en/paperdose

ABOUT THE COMPANY

Valmatic designs and manufactures single-dose packaging and vials for third parties working in the cosmetic, pharmaceutical, veterinary, chemical and food industries. All products are completely customizable in shape, color and look, and available with a variable capacity ranging from 0.50ml to 200ml. All thermoformed products are made of thin plastic films,

which are flexible, light and hygienic. The packaging is easy to handle and easy to open. The plastics we use are made of up to 80% recycled PET bottles, and are recyclable themselves. Even the ink and adhesives are made with materials that are certified according to international regulations, upholding elevated hygiene and safety standards.

FOCUS ON SUSTAINABILITY: PRODUCT

PAPERDOSE® is a registered trademark “Made by Valmatic”: 3D single-dose paper of the latest generation on the market, currently available for third-party service and Private Label in capacities from 2 to 40 ml. 3D means that the technology used allows the sides of the dose to be expanded using as little paper as possible. This type of paper packaging is thermoformed on our vertical machines: this paper material is FSC and Aticelca certified, respect for the ecosystem through the use of completely recyclable material. Each dose is made up of over 80% PAPER and a tiny layer of PE or ALUMINUM. Practical and hygienic, it keeps the organoleptic properties of the contents unchanged thanks to the thin internal layer that acts as a barrier. The single use of the product does not guarantee exceptional waste and can be thrown away in the paper.

ABOUT THE COMPANY

Since 1925, we have been putting our know-how to work for you in every realm of the beauty industry: manicure, artificial nail construction, skin care, make-up, hair removal and training. Our brand is constantly innovating to offer you an extensive selection of colours and textures while maintaining our commitment to provide quality at a keen price.

Always with an eye on product composition, we try to ensure our new products contain the highest possible percentage of naturally sourced ingredients. We are also working hard to develop product packaging that meets the new environmental regulations, including refill systems and more recyclable packaging.

FOCUS ON SUSTAINABILITY: PRODUCT

Green Lak is an LED nail lacquer that applies like a semi-permanent nail lacquer but can be removed like traditional nail lacquer with an acetone-free remover!

Designed to provide a perfect manicure in under 20 minutes, the Green Lak range ensures flawless wear for 9 days without any prior nail preparation required.

The range now includes over 85 colors, allowing you to express your creativity without limits!

The nail lacquers are green, made with up to 73.5% bio-sourced ingredients*, vegan, and made in France.

*Derived from sugarcane residue or cassava, corn, or cotton derivatives.

PET HEAVY WALL BOTTLE

By Epopack

CANADA
 HALL: 20
 STAND NO: A19
 WEBSITE: www.epopack.com

ABOUT THE COMPANY

EPOPACK specializes in the design and manufacture of premium PET packaging solutions, focusing on heavy wall bottles, single-material jars, and sustainable options including 100% PCR PET (Post-Consumer Recycled). Our heavy wall design offers a premium

glass-like experience that is shatterproof and fully recyclable. We are committed to providing our clients with innovative, durable, and environmentally responsible packaging that enhances their brands and meets the evolving demands of today's market.

FOCUS ON SUSTAINABILITY: PRODUCT

100% PCR PET - Achieved by breaking down PET material to the molecular level. This allows for much of the imperfections commonly seen in PCR to be removed. You see less colour variation, dark spots, flow lines, and you can achieve a clarity that was previously impossible in heavy-wall style. Why only 100%? Throughout our many years of testing and handling this material, we have determined that mixing PCR PET with virgin PET to make a lower percentage will result in a higher defect rate. To combat this unnecessary waste, we only use 100%.

PLG TECHNOLOGY By Macrofarm srl

PLG - GRAPE

ITALY
HALL: 20
STAND NO: A53
WEBSITE: www.macrofarmsrl.com

ABOUT THE COMPANY

Macrofarm srl specializes in supplying premium and cutting-edge solutions high-quality raw materials for the cosmetic industry. We focus on eco-sustainable ingredients, including innovative extracts produced using Naviglio® technology. We develop technologically advanced functional actives and hold patents to ensure

Our portfolio includes Fluxa extracts, PLG Technology, and Ipstic Technology, all designed to meet your specific needs with tailor-made, sustainable, and innovative solutions.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

The PLG-GRAPE project is a concrete example of sustainability and innovation Made in Italy, transforming Magliocco Calabrese grape pomace, a by-product of winemaking, into an active ingredient for green cosmetics. Thanks to PLG (Plasma Grafting-like) technology, the grape pomace extract is stabilized through molecular grafting with dextran, enhancing its bioavailability, controlled release, and stability. The extraction process is carried out using the Naviglio® Extractor, an advanced system that employs a dynamic pressure-controlled process, maximizing the extraction of antioxidant polyphenols without the use of chemical solvents. Compared to traditional techniques, this method is faster, more eco-friendly, and safer, reducing energy consumption while preserving the integrity of bioactive compounds.

PROKE

By PGM12

ITALY
HALL: 14
STAND NO: G30
WEBSITE: www.proke.app

ABOUT THE COMPANY

PGM12 is an Italian start-up that launched its first digital solution Proke in mid-2024. Proke is a digital solution to take the measurements of the body with an app and a wearable device. It is sufficient to download the app and scan the dots of the Proke suit to capture in 3 minutes all relevant body measurements.

Follow-ups, monitoring body changes becomes an easy and modern process. The solution has been developed for personalized and made-to-measure garments industry but is gaining attention also in medical and wellness markets. Proke is available in Europe.

FOCUS ON SUSTAINABILITY: PRODUCT

The solution Proke is innovative because it allows to take digital measurements of the body in a precise way without complex and expensive body scanners. Only an app and a reusable wearable device are needed. There is no need to take the measurements in a manual way with a tape by an expert person, but data are captured digitally to build a database with body types. More digitalization and a reusable wearable device makes the process fully sustainable. No more travels by expert personnel, no more time waste to write and monitor data, capability to follow-up body changes at a distance are the main advantages of this solution.

SALVEO By MESACOSA CO., LTD.

ITALY
HALL: 21
STAND NO: H7
WEBSITE: www.mesacosa.co.kr

ABOUT THE COMPANY

Founded in 2005, MESACOSA CO., LTD. is a pioneering South Korean company dedicated to creating high-quality natural skincare under the SALVEO brand. We blend botanical science, aromatherapy, and traditional Korean medicine with modern dermatology. Our portfolio includes Maehwasoo cosmetics, which harness Prunus mume flower water, ginseng extract, and essential oils for hydration, antioxidant, and anti-aging benefits, and Curaderma, a targeted line for acne-prone skin offering gentle yet effective solutions. With small-batch production and on-demand manufacturing, we focus on sustainable, clean beauty that enhances skin health while minimizing environmental impact.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Our sustainability project champions eco-friendly practices and community support. We exclusively use paper and glass packaging, avoiding plastics to minimize environmental impact and enhance our green credentials. Our printing process employs soy ink, a renewable, biodegradable alternative that reduces our ecological footprint while delivering high-quality prints. Additionally, we commit to an annual tree-planting initiative that contributes to reforestation and environmental restoration. Each year, we donate a portion of our profits to social welfare organizations, reinforcing our dedication to societal well-being. Together, these measures underscore our integrated approach to sustainability, blending responsible material choices with tangible community benefits.

SCHWAN COSMETICS INTERNATIONAL GMBH

schwan cosmetics

GERMANY

HALL: 15

STAND NO: E12-F11

WEBSITE: www.schwancosmetics.com

ABOUT THE COMPANY

Schwan Cosmetics is a premium private-label producer for some of the world's most-known color cosmetics brands. We work in close collaboration and partnership with our customers to design a cosmetic line that reflects their brand identity, down to the smallest detail.

With over 3,100 employees at nine production sites around the world, we offer a wide selection of innovative, high-performance, and sustainable textures, unlimited colors, and individual packaging solutions.

FOCUS ON SUSTAINABILITY: PRODUCT

Natural, statement brows continue to be a sought-after feature, and TikToks hashtagging brow growth have accumulated over 40 million views. To meet the growing demand for growth-supporting brow makeup, Schwan Cosmetics launches the 3-in-1 BrowFix that strengthens, colors, and fixes eyebrows in place. 94% of the clean and vegan formula is made of natural ingredients and contains 3.95% boosting care ingredients, such as eriobotrya japonica leaf extract, which reduces the time needed for hair growth and boosts its speed, and panax ginseng root extract, which activates intercellular communication, improving the physiology of hair growth. Altogether, the formula has six ingredients combined to promote healthy brow hairs.

SKEAN BEAUTY

By Design4beauty Srl

skean®
skin+clean, naturally

ITALY
HALL: 14
STAND NO: G20
WEBSITE: www.skeanbeauty.com

ABOUT THE COMPANY

Skean® is an Italian brand, launched in November 2021, offering a simplified approach to beauty. The brand features a selection of highly effective products, combining scientific research, clean ingredients, and advanced formulations for visible, lasting results. Skean®'s philosophy is based on products designed to cleanse, hydrate, and protect the skin, keeping it

healthy and radiant. The formulations are free from added water and enriched with bergamot juice recovery, known for its beneficial properties. Each product is made with high-quality raw materials, elegant packaging, and adheres to Clean Beauty standards. Skean® stands out for its rigorous clinical and dermatological testing, as well as its commitment to sustainability.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Sustainability is a fundamental value for Skean®'s Essential line, which incorporates innovative solutions to reduce environmental impact through upcycling. The formulations replace added water with Cytofruit Waters®, an active recovery water from bergamot, obtained from the fruit's food processing. This ingredient, rich in trace elements, provides the skin with a toning action superior to traditional demineralized waters, transforming a byproduct into a valuable resource. The packaging also reflects this philosophy: the boxes are made with Crush Favini, an eco-friendly paper containing citrus waste, which reduces the use of virgin cellulose and enhances recovered materials. Skean® combines science, nature, and sustainability, creating high-performance products that respect both the skin and the environment.

TOSLA Nutricosmetics

T O S L A
N U T R I C O S M E T I C S

SLOVENIA
HALL: 20
STAND NO: C44
WEBSITE: www.toslanutricosmetics.com

ABOUT THE COMPANY

TOSLA Nutricosmetics is the leading European manufacturer of beauty supplements. With cGMP and FSSC 22000 certifications, FDA registration, and B CORP accreditation, the company is easily trusted. Specialized in researching, developing, and producing high-performing liquid beauty supplements, the company holds a great emphasis on clinical studies and quality. Tailored for premium beauty and wellness brands, the high-potency formulations are concentrated in pure actives and proven to bring the desired results. All are sugar-free and come in a liquid format which provides special convenience and ease of use. Their differentiation point is TASTE; thanks to their award-winning VELIOUS™ flavor technology. This innovation transforms the taste of primary raw materials, ensuring a delightful experience.

FOCUS ON SUSTAINABILITY: CORPORATE EDUCATION & AWARENESS

TOSLA Nutricosmetics, committed to sustainability, launched the FORWARD project to integrate environmental, social, and governance (ESG) principles into their approach to nutricosmetics. The project's goals, among others, include reducing their carbon footprint, supporting local communities, and offering reliable, high-quality products. With the aim to be the most trustworthy partner and to continue leading the beauty and wellness industry toward a more greener future. To raise awareness about sustainability, TOSLA hosted the Sustainable Beauty Inside Out event, where industry experts explored the latest trends and eco-friendly practices in beauty and wellness. The event featured four podcasts that explored various topics, including regulations, brand discussions, supply-side perspectives, and concluded with a conversation with a plastics expert.

UVIA

By Planbio Cosmetics Srl

ITALY
HALL: 14
STAND NO: G32
WEBSITE: www.uvia.it

ABOUT THE COMPANY

We are an innovative startup that creates Premium products and services, with UVIA and UVIALAB brands, using an organic and patented extract of Nero di Troia pomace. Sustainability is the basis of the production process, as in line with the principles of the Circular Economy, we recover waste material from winemaking, giving it new life in the form of a cosmetic extract. We have an Italian patent, Patents pending

in over 30 Countries and University studies, which certify its effectiveness on cells, in combating inflammation and aging, as well as a very high antiseptic activity. We have over 15 references, for face, body, make-up and intimate skincare, in addition to our Aqua di UVIA, an absolute innovation in the spray water sector. In 2024 we launched two important projects: UVIALAB and UVIAgyn.

FOCUS ON SUSTAINABILITY: CORPORATE EDUCATION & AWARENESS

Our commitment to sustainability translates into daily research and the recovery of raw materials in the CIRCULAR ECONOMY sector. We strongly believe in Lavoisier's motto, that in nature nothing is created and nothing is destroyed, but everything is transformed. Our CHARTER of VALUES includes respect for the environment, as we only use single-material packaging, easy to recycle, and we do not laminate the cases and advertising material, to make recycling easy. We ENCOURAGE our customers to RETURN EMPTY CONTAINERS to retailers, in exchange for a DISCOUNT on the purchase of new products. We have ELIMINATED all mini SAMPLES, at the same time we provide customers with mini sizes in glass in exchange for a small contribution, which we return when the jar is returned to us.

WEBSITE: www.whitecastle.it

ABOUT THE COMPANY

On the verge of its 60th anniversary, LA NORDICA is a family-owned company now in its third generation, proudly Italian. Under the brand WHITE CASTLE, it offers solid and liquid soaps, bath foams and salts, oils, body creams, home fragrances, and much more. LA NORDICA is a wellness and fragrance factory, an artisanal workshop of exceptional quality that employs industrial-scale

methodologies, producing over 2.5 million soap bars annually. It stands out for its quality, innovation, rigorous internal production controls, and external certifications. The company uses raw materials of natural origin, adhering to strict safety standards and ethical production practices. Guided by a strong vision of environmental sustainability, it is committed to renewable energy and sustainable raw materials.

FOCUS ON SUSTAINABILITY: PRODUCT

At WHITE CASTLE, our love for animals goes beyond avoiding animal testing. We are proud to be among the first in the industry to create a line of solid cleansers for the hygiene and well-being of our four-legged friends. The PET LINE includes three solid cleansers made with natural ingredients. Each product features a natural active ingredient derived from carbohydrate fermentation, along with shea butter, panthenol, rice starch, and organic extracts of calendula and chamomile. These make the fur of dogs and cats soft and shiny, hydrate their skin, and strengthen the skin barrier. The line includes a shampoo, plus two shampoo-conditioners—one specially designed for puppies. The PET LINE by WHITE CASTLE stands out for its gentle formulas, biodegradable ingredients, minimal water use in production, and eco-friendly, plastic-free cardboard packaging.

ABOUT THE COMPANY

Zignago Vetro is a world leading glass manufacturer for the markets of Cosmetics & Perfumery and Food & Beverage. With its know-how, excellence and specialization, the Group is able to deal with any kind of request, either for creative or productive needs, covering every particular market segment.

FOCUS ON SUSTAINABILITY: CORPORATE ECO FRIENDLY SOLUTIONS

Door-to-door recycling project with glass recycling companies. In 2022, Zignago Vetro launched a unique project in Italy involving customers and stakeholders to increase and improve the glass recycling chain. As part of this circular model, the Group has established relationships with a network of distributors to source glass cullet (empty, broken or deteriorated containers that would be thrown away) directly from Zignago Vetro customers. Once the cullet has been collected in order to minimise transport costs and CO2 emissions these partners also take care of its transport to Zignago Vetro's cullet treatment centres (Vetreco, Vetro Revet, Julia Vitrum), again following proximity logic.
